Sacramento, California – January 28, 2023 – Wynn Innovations is proud to announce that it has recently completed the Veteran Institute Procurement (VIP) GROW Program, a comprehensive training and certification program designed to enhance the competitiveness of veteran-owned businesses in winning government contracts.

On January 26, 2023, Wynn Innovations was among the 45 companies from 16 states, plus D.C., to graduate from the highly-regarded VIP GROW Program. The program, which is fully funded by the Montgomery County Chamber Community Foundation, in partnership with SBA, Lockheed Martin, and the State of Maryland, provides hands-on market-based instruction that establishes best business practices for Federal government contracting.

As a result of participating in the VIP GROW Program, Wynn Innovations has gained valuable tools and resources to successfully bid on government contracts and serve both military and civilian agencies. The comprehensive training and certification offered through the program has equipped the company with the necessary skills to elevate its competitiveness in the marketplace.

We are honored to have been part of this prestigious program and to have received this certification," said Benjamin Wynn, CEO of Wynn Innovations. "We believe that this program will play a critical role in our continued success as a veteran-owned business in the government contracting space.

The VIP GROW Program, which was launched in 2009, has already helped 1,113 veteran-owned small businesses to grow their businesses and succeed as government contractors. Graduates of the program have reported growth rate averages of 57% within one year of graduating from the Institute and more than 180% two years after graduation.

For more information on the VIP GROW Program and its benefits, please contact Barbara Ashe at 301-738-0015 x215 or visit [www.NationalVip.org](http://www.NationalVip.org).
